

The **Aotea Electric Group** of companies comprises over 24 individual Aotea Electric Branches as a truly National company, from Invercargill to Whangarei. We are highly successful and well established and due to recent expansion and diversification of our Dunedin based **Communications Division**, currently require the additional services of a Senior / Leading-Hand **AV / Automation** Engineer / Technician.

If you are currently working in the industry or have an interest and aptitude for it, and have the following attributes;

- are Health and Safety focused
- are also customer focused and able to maintain and develop client relationships
- are a strong communicator and thrive from delivering end to end turn key solutions
- take pride in your work
- are able to work as part of a team and independently, as required
- want to extend yourself beyond the capacity of your current employment
- able to be in paid employment in NZ
- have experience in one or more of the following general areas, (Although specific training will be provided);

Audio Visual
Automation
Electrical

THEN WE WOULD LIKE TO TALK WITH YOU!

We offer the opportunity to join a professional, fast growing, nationally represented and diverse company with incentives to fully utilise and achieve your potential via ongoing training, experience and further opportunity.

An above average remuneration package to be negotiated with the successful applicant.

Please apply in writing with your CV and cover letter to info.dunedin@aoteaelectric.co.nz or

Attn: Communications Area Manager
Aotea Electric Southern Ltd
PO Box 922
Dunedin

Applications close Monday **Monday 15th March 2021**
