

Aotea Electric Queenstown is looking for a Data Technician to join our progressive and innovative team.

The Aotea Electric Group of Companies is a highly successful, well established electrical services group that offers a great future.

Further career path growth and additional certification and training will be offered to the successful applicant based on performance.

Your key responsibility will be to ensure the site installation work is completed on time, as specified and within budget.

The successful applicant will offer:

- Ability to effectively prioritise and execute tasks in a high-pressure environment.
- Maintain accurate records of job work hours and provide other administrative functions.
- Plan and coordinate on site resources and materials, including installation and testing.
- Be methodical and accurate in your work.
- Sound computer literacy is essential including a good command of Microsoft Word, Excel and Outlook.
- Strict adherence to health and safety procedures.
- Be fit and healthy in order to meet the physical demands of the job.
- Ability to read and understand technical documents, specifications, schedules and drawings.
- Clean NZ Drivers Licence required.

Experience:

- Structured Cabling Solutions, including Certified UTP Cabling and Fibre Optic Cabling.
- Knowledge of general telecommunications and fibre systems.
- Current ASNZ standards for commercial premise cabling and pathways.

Qualifications:

- The successful applicant must be certified in one of the following products; Commscope, Hubbell, Siemon, Schneider.

Applications for this position must have NZ citizenship, residency or a valid NZ work visa, confirmation of these details should be included in the application.

Email your cover letter and CV to debra.loewe@aoteaelectric.co.nz
